board approves spectator accommodation

THE PAST: Pictured above are the permanent University bleachers as they appeared in 1937 to the west of the track and. . . . THE FUTURE: The proposed spectator accommodation will be similar to the stands pictured below and will be built on the site of the original stands.

The University's Board of Governors has approved seating accommodation for 2,000 on the site west of the track, bordering on 116th Street between 87th and 89th Avenues.

The seats will be wooden on a steel frame resting on a concrete base. Initially, they will rise approximately twelve feet at the highest point and will be divided into two stands seating 1,000 each. The cost will be approximately \$45,000 to \$50,000. The seating framework will be portable so that ultimately it may be moved to another site pending construction of a first class permanent grandstand. It is likely that a hedge will be planted at the rear of the stand to provide some privacy, camouflage, and weather protection.

What will this seating accommodation mean in terms of future athletic events? First of all, the University Track, considered to be one of the finest all-weather tracks in the country, will be the site of the 1966 British Empire Games Canadian Trials - an event which will focus the eyes of millions of Canadians on the University's Edmonton campus. In addition, the Provincial High School Track Meets, usually held in Stettler, will in future be held on the campus. And finally, university outdoor athletic events including track and field, football, soccer, rugby, and field hockey will now take place on campus, providing greater convenience to athlete and spectator alike.

Seating accommodation on this site is not a new idea. As early as 1923 the Board of Governors authorized the erection of bleachers (at a cost of \$600!) on this same location. These bleachers, shown in the photograph to the left, were eventually destroyed by fire during the Second World War years. Since then, purely functional temporary seating, which is removed during the winter months, has been located there. The new seating accommodation will be a welcome addition to the University.

faculty notes

alumni golden jubilee award

F.G. WINSPEAR

DR. F.G. WINSPEAR, a leader in the business life of Alberta, has been named by the Alumni Association to receive the Alumni Golden Jubilee Award. This award is presented annually to a

person who has contributed greatly to the University of Alberta.

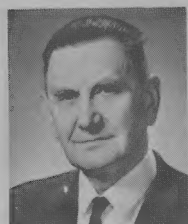

Presentation of the award will take place Wednesday, June 2nd at the Spring Convocation Ceremonies, Part II, in the Jubilee Auditorium.

Dr. Winspear's service to the University of Alberta began 35 years ago when he accepted a position as Instructor in Accounting. He was active in developing the School of Commerce and rose to the rank of Professor. He served as a member of the University's Survey Committee, led the campaign to provide furnishings for the Students' Union Building, received the honorary Doctor of Laws degree from the University in 1951, and more recently, donated generously to the building of the University's Faculty Club.

Outside the University community Dr. Winspear has been extremely energetic in the business world. In 1949 he served as President of the Edmonton Chamber of Commerce and in 1950 was elected President of the Canadian Chamber of Commerce, a position in which he served as a Canadian ambassador of good will abroad. He has built up his own Chartered Accountant's firm in Edmonton. Currently he is Chairman of the Board of a number of firms connected with the lumber business. He is also President of two electric firms and Director of many other business ventures.

Dr. J.E. Bradley, President of the General Alumni Association, will present the award which will take the form of a gold-plated tray. Former recipients of the Alumni Golden Jubilee Award have been Dr. G. Fred McNally, the late Mr. G.B. Taylor, Miss Mamie Shaw Simpson, Dr. W. H. Swift, Senator Donald Cameron, and His Honour, Judge L. Y. Cairns.

honorary president

L. E. GADS

The 1965 Graduating Class has honoured PROF. L. E. GADS, Associate Dean of Engineering, by naming him their Honorary President. Among his official duties will be acting, with Mrs. Gads, as one of the patrons for the Convocation Ball, and replying to the toast to the University at the Annual Alumni Dinner.

canada council

The Canada Council has allocated a total of \$5,000 toward purchases of library materials at the University of Alberta. These grants will be matched by the University for purchases in the fields of African Studies and Music.

The African Studies collection will include periodicals on Africa which are scarce in Canada and will serve to provide fine research materials in the fields of history, geography, anthropology, political science, economics, linguistics, and education as they related to Africa.

The Department of Music will use the grant to obtain a collection of Medieval and Renaissance musical scores as well as 20th century scores such as the complete works of Stravinsky and other well-known composers. Some of these collections will be unique in the prairie province area and will be used for senior courses and graduate research.

library

The National Research Council, under the auspices of its Associate Committee on Scientific Information, is undertaking a survey of science and technology collections of Canada's major libraries. The survey is designed to assess the strength and weaknesses of individual collections and to evaluate the total resources of the country. It will be conducted by Mr. George Bonn, Professor of Library Studies, Graduate School of Library Studies, University of Hawaii, who has had wide experience in carrying out surveys of libraries in the United States, Turkey, and Japan. He will visit the University of Alberta June 21 and 22 to meet with Heads of science departments or their library representatives.

MR. BRUCE PEEL, Chief Librarian, has recently been re-appointed to a three-year term on this Associate Committee on Scientific Information which meets annually to discuss problems of disseminating Scientific information in Canada, and developments in information retrieval methods. He has also recently served as library consultant to Lakehead College of Arts, Science, and Technology at Port Arthur on library organizational problems.

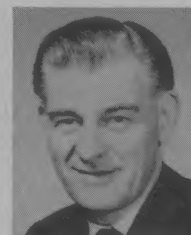

elementary education

PROFESSOR WILLARD REESE of the Department of Elementary Education has been appointed a Director, representing Canada, of the Council of Elementary Science International. This is the first time a Westerner has represented Canada on the Council. As one of the 8 Directors of C. E. S. I., Professor Reese will represent Canada at international meetings and will have a vote on the Board.

medicine

DR. J. A. L. GILBERT, Professor of Medicine, has been elected a Fellow of the Royal College of Physicians of London.

Dr. Gilbert, an internist specializing in gastroenterology, has carried out unique research in Canada on early detection of persons likely to develop diabetes. He is also a Fellow of the Royal Colleges of Physicians of Edinburgh and Canada.

J. A. L. GILBERT

Dr. Gilbert was born in Scotland but has lived in Edmonton for the past 15 years during which time he has been continually associated with the University's Medical Faculty.

He will receive his fellowship in London May 27th at the meeting of the Royal College of Physicians.

alberta heart foundation

Eight grants totalling \$71,400 were awarded University staff members by the Alberta Heart Foundation for research into heart disease. Recipients of grants were DR. J. C. CALLAGHAN (Cardiovascular and Thoracic Surgery) - \$15,000, DR. C. W. NASH (Pharmacology) - \$10,580, DR. E. E. DANIEL (Pharmacology) - \$9,550, DR. D. P. MACLEOD (Pharmacology) - \$9,335, DR. A. L. JACOBSON (Chemistry) - \$7,985, DR. D. TRIANTAPHYLLOPOULOS (Physiology) - \$7,250, DR. C. M. KAY (Biochemistry) - \$6,700, and DR. G. S. MARKS (Pharmacology) - \$5,000. All grants are effective July 1st of this year.

physiology

As a result of his outstanding research in the field of blood coagulation, DR. D. C. TRIANTAPHYLLOPOULOS of the Department of Physiology was speaker at a recent Symposium of Blood Coagulation in Atlantic City, New Jersey. The Symposium was held in conjunction with the 49th Annual meeting of the Federation of American Societies for Experimental Biology. He also received word recently of an extension to his research grant from the Public Health Service for studies on a fibrinogen-derived anticoagulant.

DR. W. H. COTTLE has been invited to address the Third Gunma Symposium on Endocrinology which will be held at the Gunma University in Maebashi, Japan, following the 23rd International Congress of Physiological Sciences being held at Tokyo in September of this year.

library school approved

The University's Board of Governors has approved, in principle, the establishment of a Library School in Alberta subject to the availability of space and finances. The site of the school has yet to be decided upon but it will be located on either the Edmonton or Calgary campus.

The School is intended to serve the needs of the university and public libraries of the three prairie provinces. There are currently three library schools in Canada located at the Universities of McGill, Toronto, and B. C. with a fourth school planned for the University of Western Ontario.

The need for a Library School to serve the prairie provinces is urgent due to a critical shortage of professional librarians in the University and public libraries in Alberta, Saskatchewan, and Manitoba. In Alberta alone, the two campuses of the University currently require 20 to 25 new librarians per year and the needs of the junior colleges will increase.

A committee will be set up at the University to consider the best location of the School and work out the detailed arrangements. It is hoped that the School will open by the fall of 1966 with an initial enrolment of approximately 50 students.

c.u.f. conducts survey on canadian graduate students in the u.s.a.

Most of the 3,500 Canadians in the graduate schools of American universities would prefer to return to Canada. But many of them are likely to stay in the United States unless Canadian universities and other employers actively seek them out and make them specific offers of appointment.

This was the conclusion of a team of 3 Canadian university officials after an exploratory series of meetings with Canadian students at 6 large American universities earlier this month. The purpose of the tour was to acquaint the students with opportunities for university teaching and research posts in Canada and to discover ways in which contact might be maintained with them.

Under the auspices of the National Conference of Canadian Universities and Colleges, and with the assistance of the National Research Council of Canada, the team travelled to the Universities of Illinois, Chicago, Michigan, Columbia, and Harvard, and the Massachusetts Institute of Technology. The members of the team were Dr. Murray G. Ross, President of York University, Dr. Laurence H. Cragg, President of Mount Allison University and a member of the National Research Council, and Dr. Edward F. Sheffield, Director of Research, Canadian Universities Foundation.

At these 6 universities there are an estimated 750 Canadians studying for advanced degrees - more than 20 percent of the total number of Canadian graduate students in the U.S.A. On each campus the team met first with interested students as a group and then remained another day for personal interviews. On the average, the group meetings attracted about 1/3 of the Canadians on campus. Smaller numbers sought personal interviews.

Without exception the team was appreciatively welcomed by the Canadian students, and also by officials of the host universities. "Thanks for coming," the students said. "We're glad someone in Canada is showing an interest in us. This should be an annual event." They also said they wished Canadian firms would recruit on U.S. campuses.

Each meeting began with a brief outline, by the visitors, of the rapid expansion of university enrolment and facilities in Canada and the development of scientific research, and the resulting demand for teachers and research workers. Copies of the Canadian Universities Foundation periodic listing of 'Academic Vacancies' were distributed. Then followed a period of questions, answers, and discussion. On every campus the students revealed their desire to be kept informed of these developments, the difficulty of keeping in touch with Canada, and their feeling of being forgotten. Even more strongly they revealed, with few exceptions, their wish to return to Canada providing they could locate suitable positions.

On many occasions the team was embarrassed to learn of students who had made inquiries about openings or applied for vacant appointments in Canadian universities without receiving even an acknowledgment of their letters. These are exceptionally able and well qualified young people, many of them completing doctoral programs in fields in which Canada has an inadequate supply of teachers and researchers.

The team returned convinced that Canadian students in U.S. universities constitute an excellent but relatively untapped source of Canadian university staff. It was also clear that there are many young American graduates who can be interested in posts in this country.

The customary way of recruiting from the American graduate schools is by informing the chairmen of the relevant university departments of the positions to be filled and the qualifications required of candidates. The best time for this is during the months of November, December, and January.

American universities are actively wooing these young people as they approach the time of graduation. Canadian universities must be equally aggressive, the team concluded. Fortunately, Canadian salaries appear to be competitive at the moment; they must be kept competitive.

On the basis of its April tour the team decided to recommend to the NCCUC: (1) that the CUF compile up-to-date annual lists of Canadians studying abroad and tell these students of the availability of information about academic vacancies in Canada; (2) that the universities be encouraged to list their needs in CUF's periodic publication 'Academic Vacancies'; (3) that subscribers abroad to Academic Vacancies also be sent the CUF quarterly bulletin 'University Affairs'; (4) that arrangements be made for annual autumn visits by Canadian university officials to the universities in the U.S.A., Britain and Western Europe where Canadian graduate students are concentrated, to help keep them informed of developments and opportunities at home; (5) that university personnel in receipt of queries and applications from potential staff members be urged to respond as promptly and helpfully as possible; (6) that universities seeking new staff members be encouraged to include, among those who are invited to suggest suitable candidates, appropriate officials of universities abroad where Canadians are known to be in significant numbers.

calendar of events, may 16th to 31st

- May 17 - Household Economics Faculty Council Meeting, 9 a.m.; Nursing Faculty Council Meeting, 2 p.m.
- May 18 - Physical Education Faculty Council Meeting, 9 a.m.; Engineering Faculty Council Meeting, 9 a.m.; Agriculture Faculty Council Meeting, 2 p.m.; Committee on B.Sc., M.L.S., 2 p.m.
- May 19 - Graduate Studies Faculty Council Meeting, 9 a.m.; Science Faculty Council Meeting, 2 p.m.; Arts Faculty Council Meeting, 2 p.m.
- May 21 - General Faculty Council Meeting, 2 p.m.
- May 24 - Victoria Day - University Closed
- May 25 - Pharmacy Faculty Council Meeting, 9 a.m.; Dentistry Faculty Council Meeting, 9 a.m.; Commerce Faculty Council Meeting, 9 a.m.; Law Faculty Council Meeting at 2 p.m.; Medicine Faculty Council Meeting, 2 p.m.; Education Faculty Council Meeting, 2 p.m.
- May 26 - Spring Convocation on the Calgary campus.
- May 27 - Senate Meeting, 9:30 a.m.
- Rehersal for Convocation, Part I in Convocation Hall, 1:30 p.m.
- May 28 - Spring Convocation Part I for graduands in Arts, Engineering, Graduate Studies, Household Economics, Science, and Commerce, 2:00 p.m., Jubilee Auditorium.
- Convocation Tea and Presentation Ceremonies, 4:30 p.m., Lister Hall.
- Formal Convocation Ball, 9:00 p.m., Macdonald Hotel.

coming events

- June 1 - Annual Alumni Dinner. Graduands, their parents and friends, University staff members, and alumni are invited to attend the dinner. Dr. F. G. Winspear will be the featured speaker. Miss Marilou Wells will give the graduating class history. Tickets in the Jubilee Auditorium, are on sale at the Alumni Office at \$2.75 per person. An informal dance, sponsored by the Students' Union, will follow. Tickets for the dance at \$2.00 per couple are available at the Students' Union Office.
- June 2 - Spring Convocation, Part II for graduates in Agriculture, Dental Hygiene, Dentistry, Education, Law, Medicine, Medical Laboratory Science, Nursing, Pharmacy, Physical Education, and Rehabilitation Medicine.
- June 7-8 - Banff Conference on "Law and Order in the International Community." This conference has been planned to permit the practising lawyer to acquire skills and gain some knowledge of international law for use in his office and his community. Some of the outstanding names in legal, governmental, and academic circles who will be speakers are: Percy Corbett, Princeton University; John Read, the only Canadian to ever sit on the World Court in The Hague; Maxwell Cohen, Dean of Law at McGill University; Ivan Feltham, Osgoode Law School; Richard Lillich, Syracuse University, 'the' American author on international claims; John Holmes, President, Canadian Institute of International Affairs; J. S. Nutt, Head of the Legal Division, Ex-

ternal Affairs; and Ivan Head and King Gordon, both of this University. The conference, sponsored by the Canadian Foundation for Education in World Law, The Canadian Institute of International Affairs, the Centre for International Studies at the University of Alberta, Edmonton, and the Department of Continuing Education at the Calgary campus, is designed for practising lawyers in Alberta and those from the east who are en route to Vancouver for the Learned Societies meetings.

- June 9-12 - First National Conference on Canadian Slavs will be held at the Banff School of Fine Arts. Sponsored by the University's Inter-Departmental Committee on Slavonic and Soviet Studies in cooperation with the Department of Extension, the conference will consist of a series of research papers and panels dealing with the history, demographic and sociological aspects, cultural contributions, and political behavior of Canada's Slavic groups. Representatives of 14 Canadian and 3 American universities will participate in the conference.

- June 19-26 - 47th Annual Farm Young People's Week. The purpose of this event is to acquaint farm young people between the ages of 16 and 27 with the facilities and staff of the University of Alberta. Those participating are allowed to attend classes which will be of assistance to them in their farm operations, their home life, and community living. They experience a condensed version of student life on campus and are assisted with career information. For further information contact Professor T. A. Petersen, Agricultural Supervisor for Extension.

classified

FOR SALE in Lendrum Place: attractive white siding bungalow with three bedrooms, large kitchen, spacious living-dining room, 1 1/2 bathrooms, on a fenced and landscaped corner lot. Terms: \$3,000 down to C. M. H. C. mortgage of approx. \$14,000. Occupancy September 1. For further details phone 434-5571.

Post-doctoral fellow would like to share furnished house already available. For details call P. Martin at the Provincial Laboratory of Public Health, 433-5887 between 9 and 5.

Charter Flight Reservation Available: Edmonton to London, July 13 - August 15, \$335 full fare. Call L. P. V. Johnson in Genetics, ext. 405.

Needed: One furnished apartment on the south side during the month of July for visiting couple. Call F. L. Weichman (Physics), ext. 522.

folio deadline is the 9th and 24th of each month
